

Specification	
Motor	1.8 kW
Motor Speed	1400 & 2800 rpm
Maximum Chamfer	0 – 6 mm
Angle Range	15 – 45 Degrees
Cutting Tool Diameter	80 mm
Feed Table Size	500 x 80 x 100 mm
Abrasive Belt Size	120 x 1500 mm
Belt Platen Working Size	120 x 470 mm
Noise in average working conditions dB (A)	72
Overall dimensions (width/depth/height)	600 x 700 x 1600 mm
Net weight Kg.	120 Kg

TECHNICAL DESCRIPTION

This is a single machine running 2 different tasks. A chamfering table on one side and a belt grinder on the other.

- Low voltage electrical panel
- Built in motor brake

Chamfering Table

- The machine has been specifically designed to perform chamfering tasks on all types of metal sections. Flat, box section etc.
- This machine uses a wheel loaded with 10 TCT cutters to perform this task
- Minimum effort required from the operator for the operator
- Guarded when not in use.

Belt Grinder

- The belt grinder is twin speed and can accommodate all types of abrasive belt.
- It has a workable platen of 120x470mm (fully guarded when not in use)
- A usable contact wheel (this can be fully covered when not in use)
- Can be used in the horizontal or vertical position.
