

The Aceti ART 129 is dual sided belt linisher. The unit comes with a telescopic arm and a large platen style abrasive belt linisher. Both arms can be orientated for the optimal working position and are fully guarded allowing the side not being used to be completely covered.

The telescopic arm can be supplied with either 50mm, 75mm or 100mm wide contact wheels to suit your requirements. The arm is extendable allowing for belts between 2500 and 3000mm to be used. Ideal if you already use the Imperial industry standard 2740mm belts.

The machine is mounted on a useful cabinet stand.
Low volt controls and DC injection braking are supplied as standard.

Specification	
Motor (Twin speed)	4.4 kW
Motor Speed	1400 & 2800 rpm
Contact Wheel Size (Ø x Width)	250 x 50-100 mm
Abrasive Belt Size (telescopic)	50-100 x 2500-3000 mm
Abrasive Belt Size (Platen Style arm)	200 x 1750 mm
Workable Platen Size	200 x 590 mm
Noise in average working conditions dB (A)	75
Overall dimensions (width/depth/height)	600 x 980 x 2200mm
Net weight Kg.	220 Kg

TECHNICAL DESCRIPTION

- Orientable Belt Grinding Heads.
- Extraction Points at Rear.
- Optional Inverter for speeds from 150-3000rpm
