

The Aceti Art 37 is an ideal machine for deburring sheet up to 4mm thickness. With the option of the AV.37 auto feed unit with variable feed speeds to allow for semi auto deburring to speed up the operation. The machine comes on a cabinet stand with low voltage electrics and DC injection braking. Supplied with 60 grit flap wheels fitted.

Specification	
Motors (single speed) x 2	0.75 kW
Motor Speed	1400 rpm
Minimum – Maximum sheet capacity	0 – 4 mm
Abrasive Wheel Size (x 2)	250 x 50 x 100 mm
Support Table Size	120 x 1000 mm
Noise in average working conditions dB (A)	72
Overall dimensions (width/depth/height)	700 x 1000 x 1200 mm
Net weight Kg.	120 Kg

### TECHNICAL DESCRIPTION

- The machine has been specifically designed to perform deburring of sheet material.
- 2 Abrasive wheels for top and bottom deburring simultaneously.
- Low voltage controls with DC injection braking for e-stop.
- Supplied with eye shields.
- Cupboard Base for storage or extraction.

Optional automatic feed unit and built in extraction available
