

The Aceti 62 abrasive disc grinder is a heavy duty machine designed for the rigors of a production environment.

The single speed motor gives the optimal disc speed. The controls use low voltage components and the unit has a built in DC injection breaking system.

The disc sander takes a 600mm diameter disc and comes with a fully orientable table from 0-90 degrees allowing for precise angles to be sanded. The solid disc means that there is no give between the disc and the plate allowing for good levels of flatness to be achieved easily.

The machine is fully guarded and can be completely covered when not in use.

Specification	
Motor (twin speed) (415v)	3 kW
Motor Speed	950 rpm
Abrasive Disc Size	600 mm
Table Size	650 x 230 mm
Noise in average working conditions dB (A)	78
Overall dimensions (width/depth/height)	700 x 800 x 1360mm
Net weight Kg.	135Kg

Options include

Small built in extractor
