

The Aceti ART 73N is a front facing belt linisher with a large platen area for flat work and a open contact roller for contoured parts. Both sections of the machine have fully adjustable work tables that can be adjustable from  $-45^{\circ}$  to  $+45^{\circ}$  angle. The table on the open contact wheel end can be raised and lowered to get full use of the belt width, and whilst the table is fixed on the flatbed portion of the machine the belt unit itself can be raised and lowered to allow once again for the full belt use.

The machine is mounted on a useful cabinet stand.

Low volt controls and DC injection braking are supplied as standard.

Specification	
Motor (Twin speed)	3 kW
Motor Speed	1400 & 2800 rpm
Contact Wheel Size ( $\varnothing$ x Width)	135 x 200 mm
Abrasive Belt Size	150 x 1750 mm
Flatbed platen size	565 x 300 mm
Contact roller Platen size	565 x 300 mm
Noise in average working conditions dB (A)	70
Overall dimensions (width/depth/height)	1050 x 550 x 1200mm
Net weight Kg.	225 Kg

### TECHNICAL DESCRIPTION

- Fully adjustable work tables.
- Extraction Points at Rear.
- Enables for full use of the belt width.
