

# HYCON HRD28X UW ROCK DRILL

## POWERFUL AND EFFICIENT

## RIGID HANDLE FOR OPTIMAL UNDERWATER USE

## PRODUCT FEATURES

The HYCON HRD28X UW is a high-performing underwater handheld rock drill designed for the most demanding drilling applications in rock and concrete.

Using standard integral drill steel with air-flushing from an external compressor and a high-performing hydraulic impact and rotation unit makes the HRD28X a more powerful, and efficient rock drill.

The HRD28X rock drill is ideal for anchoring holes and splitting holes measuring  $\varnothing$ 25-50 mm.

Combined with a compressor of your choice, this rock drill is made for underwater drilling, making it the professional divers' rock drill choice no. 1.

Simply connect it to one of HYCON's compact hydraulic power packs and a compressor and start drilling. The HRD28X underwater requires external air for flushing. Air supply pressure must be enough to flush out the hole and enough to keep water out of the drills front and gear. More water depths require more pressure.

## HYDRAULIC ROCK DRILL HRD28X UW

Item no.	1010303-02
Weight [kg / lbs]	27.5 / 60
Dimensions L x W [mm / inch]	708 x 460 / 28 x 18
Oil flow [LPM / GPM]	30 / 8
Working pressure [bar / psi]	120 / 1740
Max pressure [bar / psi]	172 / 2500
Drill rod shank HEX [mm]	22 x 108
Rotation CCW [rpm]	320
Blow frequency [Hz]	40
Flushing air flow [LPM / CFM]	(external air)

### THE HYCON UNDERWATER PRODUCT RANGE

ANGLE GRINDER · CUT-OFF AND RING SAWS · CORE DRILLS · PICK HAMMER · LIGHT & HEAVY DUTY BREAKERS  
SUBMERSIBLE PUMPS · ROCK DRILLS · GASOLINE, DIESEL AND ELECTRIC POWER PACKS
