

HYCON HH10RV UW PICK HAMMER

LOW-WEIGHT COMPACT DESIGN WELL

PROTECTED TRIGGER HANDLE

SUITABLE FOR NARROW WORKING SPACES

PRODUCT FEATURES

HYCON HH10RV-UW is an exceptionally handy, lightweight pick hammer designed for underwater applications for light breaking. The low weight and compact design make it very suitable for narrow places, or simply smaller tasks.

The HH10RV UW features pre-drilled holes in the shielding for easy cleaning.

HH10RV is the strongest 10 kg pick hammer on the market, and no pneumatic hammer has anything like the same performance.

The standard tool size is hex 19 x 50 mm with an optional US 0.580" (item no.: 1010111-01). The hammer can be supplied from any power pack with a 20-lpm option.
