

HYCON HH20 UW BREAKER

RIGID HANDLE FOR OPTIMAL UNDERWATER USE

HIGH PERFORMANCE

PRODUCT FEATURES

The HYCON HH20 UW is a compact all-round breaker. It is designed for underwater applications for breaking concrete, rock & coral removal. Despite its low weight, it handles even the most challenging jobs.

Comes with a rigid handle designed for underwater use and optimal operator control.

HH20 is the preferred choice for divers where heavy machinery cannot reach.

The breaker can be connected to any HYCON power packs and other hydraulic power sources that deliver the required flow and pressure.
